Accounting

Associate of Applied Business in Business Management Technology

The accounting major serves the needs of students who are interested in advancing in an accounting career, updating skills and learning new management techniques.

Career Opportunities

Accounting students can assume entry-level positions as paraprofessionals in commercial, nonprofit, and business organizations. The accounting classes will provide students with an understanding of the various areas of accounting as well as the tools necessary for decision making.

Graduates with an accounting major have the skills to assist accountants with financial records, conduct audits and cost analyses, keep books of account, and compile and prepare financial statements. Through class discussions, case studies, computer-assisted instruction and special projects, students learn to successfully manage a small business. Management theory, learning how to motivate employees, keeping accurate financial records and promoting a business are just a few of the major topics emphasized in the program.

Other career opportunities include working with information systems specialists to design and build computerized bookkeeping systems.

Curriculum

The goal of the major is to provide students with a solid foundation in business and accounting by enhancing written and oral communication skills, critical thinking abilities and familiarity with accounting concepts.

Program Requirements

Communication (6 hours minimum)
- English
- Speech and Written Communication

General Studies (9 hours minimum)

Your University Opportunity

BGSU Firelands, located in Huron, Ohio, is a regional campus and one of the seven undergraduate colleges of Bowling Green State University. We offer many of the advantages and resources of a major university, but in a smaller, more personal environment.

Generally, students are able to complete at least two years of coursework toward most of the 200-degree programs at BGSU before transferring to the main campus, or to another college or university.

BGSU Firelands offers students a wireless environment campus wide. Kiosks and public-access computers located in most campus buildings provide easy Internet access. In addition, there are several on-campus computer labs with a variety of computers and software programs.

The library, containing more than 30,000 volumes, is computer-linked to the more than 4 million items available through BGSU’s libraries to provide excellent research opportunities.

Academic advisors work individually with students to plan their degree programs and small class sizes allow students to have close, personal contact with their professors. Free tutoring is readily available through the Teaching and Learning Center. Scholarships, grants and loans are available to assist students with tuition.
