MAJOR AREAS OF STUDY

BGSU Firelands offers nine bachelor's degrees, 14 associate degrees representing 23 areas of study and four certificate programs. There are two types of associate degrees which you can complete at BGSU Firelands. Two-year career-oriented technical majors prepare students for employment, while transfer associate degrees provide freshman-and sophomore-level courses towards bachelor's degrees at BGSU and other colleges and universities.

Please review the following list of program codes and list on your application the major and program code of your choice. If it is your intention to go on to main campus after two years, you should list either the Associate of Art or Associate of Science as your major choice.

* These programs are selective admissions. After students are admitted to a pre-program based on admissions requirements, they go through an additional application process before they are officially admitted to the major.

** This is a student-developed combination of courses with a specific area of concentration not available in other degree programs. Applicant's plan of study must be approved prior to admission to the major.

*** These programs require students to pass a set of coursework, usually within the first two years of study, before they are officially admitted to the major.
