All candidates for the four-year baccalaureate degree at Bowling Green State University must take at least nine courses from the BG Perspective core curriculum. All students must take GSW 1120 (or ENG 112). Additionally, two courses must be taken from each of the three domains of Natural Sciences (N), Social and Behavioral Sciences (S), and Humanities and Arts (H), and one course must explore the Cultural Diversity in the United States (C). One elective course (the ninth course) can be chosen from any of these four domains, or from the optional expanded perspectives (X) category. Additionally, one course must have an International Perspective (I), only available within the Social and Behavioral Sciences (SI) and Humanities (HI) domains. The courses that fulfill the BG Perspective requirements are identified below in the column labeled "BGP."

Course descriptions can be found in the 2009-2010 BGSU Undergraduate Catalog  
available on-line at <http://www.bgsu.edu/catalog>

BGSU Firelands has attempted to make the information in this schedule as accurate as possible. However, errors can occur unintentionally. Thus, this schedule should not be considered to be a contract with Bowling Green State University. All BGSU Firelands courses are offered contingent upon the availability of instructors, sufficiently high enrollment and similar considerations. The right is reserved to modify or withdraw class offerings at any time prior to the second class meeting.
