

## RADIOLOGIC TECHNOLOGY

Radiologic technologists perform imaging of patients for the diagnosis or treatment of medical concerns. Working in a variety of clinical settings, a radiologic technologist may evaluate clinical data, perform and assist in the performance of prescribed diagnostic studies, instruct patients about procedures they will undergo, monitor patient responses to care provided, modify procedures to achieve a desired outcome, and provide patient, family, and community education.

The current national median salary for radiologic technologist is \$55,910 and according to U.S. Department of Labor, the career field is expected to have a better than average employment outlook with 48,600 new positions being added from 2012-2022.

Highlights of the BGSU Firelands Associate Degree in Radiologic Technology:

- Small class sizes ensure ample personal attention - each year only 18 students are admitted into the program
- Clinical sites are all located within a 20 mile radius of campus and all eight sites are equipped with digital imaging stations and offer state-of-the-art technology to fully prepare students for competitive career options
- Program staff are committed to student success and, in addition to academic credentials, have more than 50 years of collective experience in clinical settings
- The program is fully accredited through the American Registry of Radiologic Technologists and the Ohio Department of Health, Bureau of Radiation Protection, Radiologic Technology Section
- Graduation rate of 92% - above the national average of 85%
- Placement rate of 92% - above the national average of 78%
- College-based scholarship opportunities which are dedicated to radiologic technology program and many more which are dedicated to healthcare fields
- On-campus opportunities for advanced degrees - bachelor's degrees in applied health science and nursing

### Discover the BGSU Firelands Difference

- As a regional campus of Bowling Green State University, BGSU Firelands offers the benefits of a smaller personalized campus, with the resources of a larger university
- Traditional and evening programs through 9 bachelor and 15 associate degrees
- Affordable tuition - less than half the cost of most four-year universities
- Credit transfers to more than 200 programs on the Bowling Green campus and most other colleges and universities
- Personalized attention - total enrollment of approximately 2,500 and a student to faculty ratio of 20:1
- Diverse student body ranging in age from 16 to 65 years of age
- A variety of student clubs, organizations, and intramurals offer ample opportunities for student activities
- Located in Huron, Ohio, near the shores of Lake Erie, the scenic campus includes a 47-acre arboretum
